

FAAS Team presents:

# Unusual Approaches

The term “unusual approaches” conjures up images of Aspen, CO; Bozeman, MT; Jackson Hole, WY; and just about every airport in Alaska. But unusual approaches are just as common in places like Baltimore, Boston and New York. They’re everywhere, and they can turn a standard approach into a head-scratcher at the most inopportune time. In Jeppesen’s Unusual Approaches webinar, we’ll talk about the terrain, obstacles and airspace designs that turn standard approaches into the unusual. We’ll show you how to break down several unusual approaches, the keys to planning and navigating them successfully, and give you the kind of confidence that will make a straight-in approach to 200 and ½ seem, well, mind-numbing.

**Directions:** You can register for the Unusual Approaches webinar by clicking <https://cc.readytalk.com/r/8sngzuxtd5o0&eom>

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA’s safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.

## Event Details

Thu, Apr 30, 2015 - 17:00 MDT
